

Structured M.D. / Ph.D. curriculum

Molecular Mechanisms of Regenerative Processes**Course Report Advices**

Course Report Advices

We ask you to keep track of your course participation and / or contribution using the course record sheet that is provided to you as "Excel file". Please fill in the visited courses, select and add up the appropriate certificate points from the "scoring scheme". Please fill out one sheet per module and semester and have your mentor countersign each page.

Please add copies of your documents that acknowledge participation and / or contribution in order to confirm your entries.

The "course record sheet" shall be updated each term and updates shall be added to your file that is kept at the students affairs office from the Medical Faculty.

All documents shall be forwarded to the students affairs office from the Medical Faculty, Mrs. Annett Müller, well in advance of the Participants' Camp (normally three weeks before the meeting shall take place).

The curriculum committee members shall look through your records and report back to you during the Participants' Camp.
