

WISSENS-FORUM

11. April **Dr. Dietmar Zechner**, Inst. für Exp. Chirurgie: „*Risk factors for pancreatic ductal adenocarcinoma specifically stimulate pancreatic duct glands in mice*”
18. April **Faiz Khan**, Systembiologie und Bioinformatik, Inst. für Informatik: „*Mathematical (logical) modeling approach to E2F1 signaling in tumor progression and chemoresistance*”
25. April **PD Dr. Jiankai Luo**, Inst. für Neurodegeneration: „*Wnt-signaling in the differentiation of human neural stem cells*“
16. May **Dr. Tina Lütke-Eversloh**, Mikrobiologie, Inst. für Biowissenschaften: „*Metabolic engineering of solventogenic clostridia*”
23. May Faculty Seminar - *pending*
30. May **Nicole Herzmann**, Zellbiologie: „*The effects of bacterial components on mesenchymal stem cells behaviour in vitro*”
6. June *FORUN-Presentation*
13. June **Prof. Adelinde Uhrmacher**, Modellierung und Simulation, Inst. für Informatik: „*Spatial modeling and simulation of cell-biological systems*“
20. June Faculty Seminar – **Prof. Rolf Renne**, Univ. of Florida, Gainesville: „*Ribonomics and genomics approaches to decipher Kaposi's sarcoma-associated herpesvirus microRNA functions*“ (Host: Dr. Herchenröder)
27. June **Prof. Andreas Wree**, Inst. für Anatomie: „*Intracerebral Botulinum-Neurotoxin-A therapy against experimental Parkinson's disease*”
4. July Faculty Seminar – **Prof. Gerd Geisslinger**, Klin. Pharmakologie, Frankfurt / Main: „*Title pending*” (Host: Prof. Hinz)
11. July **Prof. Robert David**, Referenz- und Translationszentrum für kardiale Stammzelltherapie: „*Generation of specific cardiomyocyte subtypes from stem cells*“

Talks will be given Thursdays at 4:00 p.m. at the BMFZ Seminar Room, Schillingallee 69

Veranstalter: Dr. Herchenröder, Prof. Pützer, Prof. Glocker
